

“Each owner should ensure an ammonia system safety check is conducted annually.”

IIAR Bulletin 109 Section 5.2

“EPA believes that owners and operators who have these (extremely hazardous) substances must adhere, at a minimum, to recognized industry standards and practices (as well as any government regulations) in order to be in compliance with the general duty clause”

Guidance for Implementation of the General Duty Clause Clean Air Act Section 112(r)(1)

Mechanical Integrity Solutions

All IIAR Bulletin #109 inspections are not equal. We offer an Annual Ammonia Inspection per IIAR Bulletin #109 guidelines, as well as a more detailed Mechanical Integrity Inspection that goes well beyond the basic inspection criteria required within IIAR Bulletin #109.

2019 Safety Services Catalog 1.0

Wagner-Meinert, LLC's Safety Services is committed to providing quality Mechanical Integrity / Annual Ammonia Inspections.

Call to make your appointment today!

Inspection Options

Annual Ammonia Inspection

Mechanical Integrity Inspection

Mechanical Integrity Inspection With Non-Destructive Testing Services

Enhanced Mechanical Integrity Inspections

Inspection Follow-Up Services

Wagner Meinert, LLC can provide Non-Destructive Services in conjunction with our Mechanical Integrity Inspection. We believe a two part process (a Mechanical Integrity Inspection followed by Non-Destructive Testing of identified areas) to be the best approach. Non-Destructive Testing points are determined by the recommendations of the Inspection Team.
